Through a comprehensive Records Management Policy and Systems which has been developed and implemented, the service delivery by the municipality has improved. Most crucially, both internal and external communication channels have improved through the services of a messenger.

Proper utilization and maintenance of municipal facilities

The municipality utilizes and continuously permits the public to utilize some of its facilities which then require cleaning and maintenance. These facilities include:

- Municipal Offices
- Public Toilets
- Public Libraries
- Public Halls

These properties are cleaned and well-maintained on a regular basis, so as to promote health and safety of the employees and the customers. Although a proper facility hire policy is still to be developed, the use of the public facilities by members of the public is nonetheless properly controlled.

The Corporate Services Department is the heartbeat of Impendle Municipality within the context of the Human Capital. Without a Healthy Labour Relations Environment, nothing will be achieved in terms of Improved Quality Service Delivery and the Integrated Development Plan. This is coupled with a well trained and motivated staff who should Deliver Quality Service to the entire Impendle Municipality communities at large within the goals of the Integrated Development Plan.

Labour Relations Management

To manage municipal labour relations between the employer and the employees for the purpose of providing effective and efficient services within the municipal area of jurisdiction, this encompasses the following:

- To promote mutual respect between employer and employees;
- To ensure that management and the employees share a common understanding of misconduct and discipline;
- Application of discipline in a prompt, fair, consistent and progressive manner;
- Prevent arbitrary actions by both management and labour organisations towards one another;
- Provide employer and employees with a quick and easy reference for the application of discipline;
- Ensuring that discipline is a corrective measure by conducting fair hearing in a formal or informal setting;
- Promote effective and efficient mechanisms to resolve grievances;
- Manage strikes to ensure that essential services are not interrupted during industrial actions;
- Co-ordination of consultative meetings with management and organised labour;
- Encourage employer and Organised Labour to collectively bargain and comply with collective agreements;
- Familiarise employees with municipality's conditions of service (induction);

Occupational Health and Safety

The Safety representatives that will be trained in Health and Safety as well as in First Aid, together with the EAP Manager, will meet on a monthly basis to discuss safety issues in the work places. They will also undertake site visits in areas which require more attention. The E.A.P. Manager also makes sure that employees who need to attend medical examinations are sent for such in due course.

HIV/AIDS Programme

A Strategic Policy to deal with the prevalence of HIV/AIDS in the Workplace has been developed. This Section is currently developing the implementation procedures. HIV/AIDS also receives much attention in our regular public gatherings and izimbizo.
